

# Biennial Review

UEWM Biennial Review for DAAPP  
January 22, 2015

Several distributions of the Drug and Alcohol Policies and Procedures were done and meetings were held to review the policies and procedures and to review the surveys conducted. All UEWM Clerical staff were involved in a presentation on January 20, 2015. They all signed a document showing they attended and understood the DAAPP. The UEWM faculty were given document as well as the students via the survey as a weblink to DropBox ([https://www.dropbox.com/s/4c5v7681ng3lndv/UEWM\\_DRUG%20%26%20Alcohol\\_PP.pdf?dl=0](https://www.dropbox.com/s/4c5v7681ng3lndv/UEWM_DRUG%20%26%20Alcohol_PP.pdf?dl=0) )

where the document downloaded automatically. The surveys were done using Survey Monkey. The surveys covered two subjects: The DAAP and the Clery Programs. Our hope was to keep the number of surveys and questions to a minimum so we would get the maximum return. We received 82 student surveys and 7 faculty surveys.

The number of student surveys returned was a little disappointing but the responses we received were informative. While we got a higher percentage of faculty to complete the survey we also received useful insights.

**Students:**

While most students 91% found the information the college provided concerning drugs, tobacco and alcohol abuse useful, there were four students (7%) that rated the information only Slightly Useful (5%) and Not at all Useful (2%). We believe we can improve this over then next two years by having Student Services go into the classrooms and make short presentations each year. Additionally we can include a pamphlet into the new students packet along with our DAAPP.

We asked the students about their alcohol consumption. This is certainly subjective and many people fool themselves about this issue but the results of the question rendered 98% of the students indicating either never consuming alcohol (51%) or Only On Special Occasions (47%). No one indicated "In Excess" and 1.2% indicated "Daily." Given the response there is little for us to do here. We must keep in mind these are all medical students and more than likely do not consume a lot of alcohol.

We then asked the students about the use of Alcohol, illegal drugs and tobacco on the UEWM campus and had them individually rate each item from "Never a Problem" to "I'm afraid to come to school because it's so bad!" Unfortunately column 2 and 3 were mixed up which could have had an effect on the responses. This will be corrected the next time we do these surveys. The use of tobacco had the greatest concern. Tobacco was rated from 69 as never a problem to 4% "I'm afraid to come to school it's so bad." The use of alcohol on campus response was 91% Never a Problem and Illegal Drug use on campus 92%. (Both had the same number of students responding the same 81) Both use of Alcohol and illegal drugs on

campus are serious issues that cannot be ignored. Note: Only one faculty member expressed concern about the occasional use of tobacco on campus and even that person and all the rest indicated "Never a Problem" to use of alcohol and illegal Drug use. So we can conclude that the faculty and senior administrators are clueless about alcohol and illegal drug use. In order to remedy this problem we will call in the Sunnyvale police or the County Sheriff's Department to make a presentation on the indicators of intoxication of alcohol and drugs. Both the two vice presidents have seen this presentation in prior positions. Additionally we will need to step up our tobacco cessation program since our campus has been declared a no smoking tobacco free campus. Checking on this we found smoking going on outside by the Clinic Entry Door. This is problematic since patients with breathing problems come to the clinic for help. We will begin to ask and if necessary tell the smokers to leave the campus. They can get in their cars and drive to the parking lot next door and smoke!

## **Faculty**

Only 14.29% of the faculty noted the material and information we give them about drugs, tobacco and alcohol were slightly useful. All the rest found the materials and information was rated Extremely Useful 14.29% Very Useful 42.86% Moderately Useful 28.57%. No one said our materials and information was not useful at all.

57% of our faculty said they NEVER consume alcohol. The rest of the faculty say they only consume alcohol on special occasions.

100% of the faculty responding found alcohol and illegal drugs are never a problem on campus. 14.29% of the faculty noted that tobacco is occasionally an issue on campus. There was a note in the open comments "Our school is a medical school that I want this school as a non smoking campus."

So we need to address the tobacco use as noted above. Additionally we stated that asking law enforcement to make a presentation concerning intoxication and how to recognize it would be very helpful for our faculty and clinic. We would especially not want our students to be needling or cupping a patient while they were intoxicated!

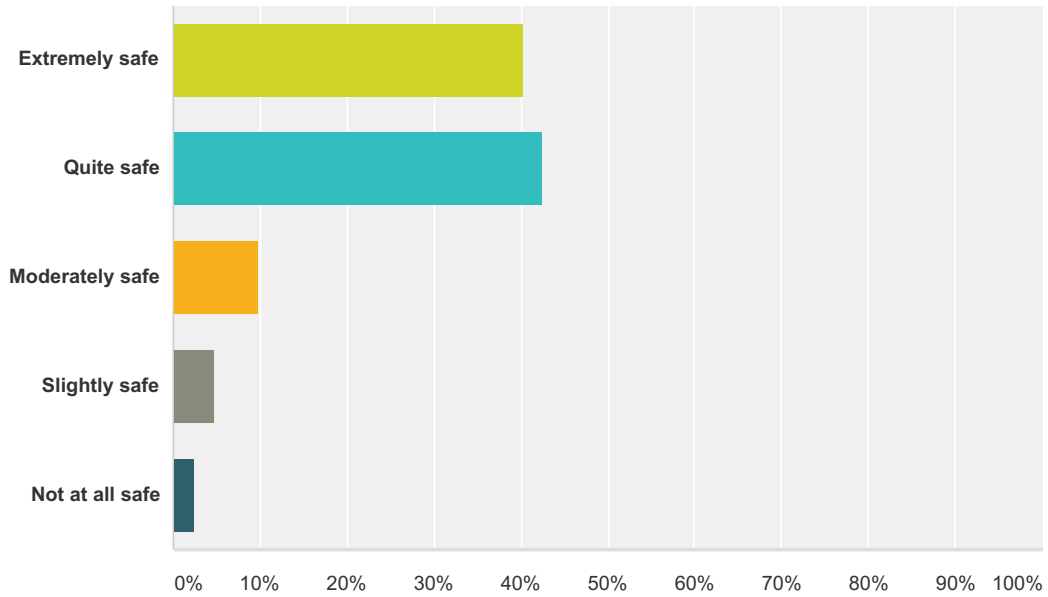

Comparing the Students' responses to the Faculty's' responses it seems clear the faculty is out of touch with some of the concerns of the students. This report is shared with the faculty and more discussions will happen at the summer faculty meeting in May.

Both surveys are included here:

# **Student Survey**

### Q1 How safe do you feel on campus?

Answered: 82 Skipped: 0

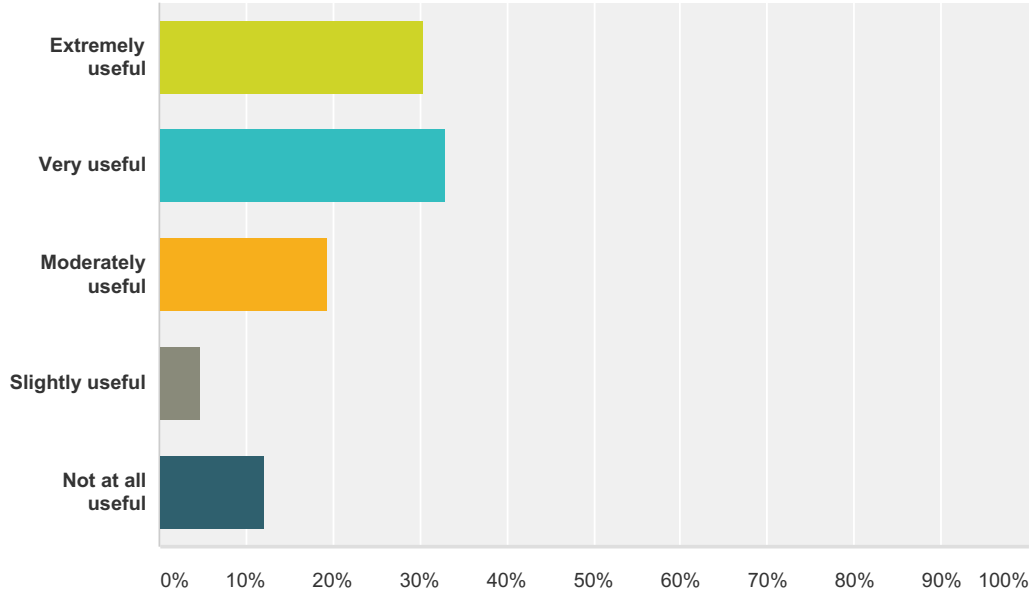

Answer Choices	Responses	Count
Extremely safe	40.24%	33
Quite safe	42.68%	35
Moderately safe	9.76%	8
Slightly safe	4.88%	4
Not at all safe	2.44%	2
<b>Total</b>		<b>82</b>

While students overwhelmingly feel safe on campus, if only a few do not, something must be done to make everyone feel safe. There are clues in other responses below.

**Q2 How useful is the information this university gives you about school safety, drug, tobacco, and alcohol abuse?**

Answered: 82 Skipped: 0

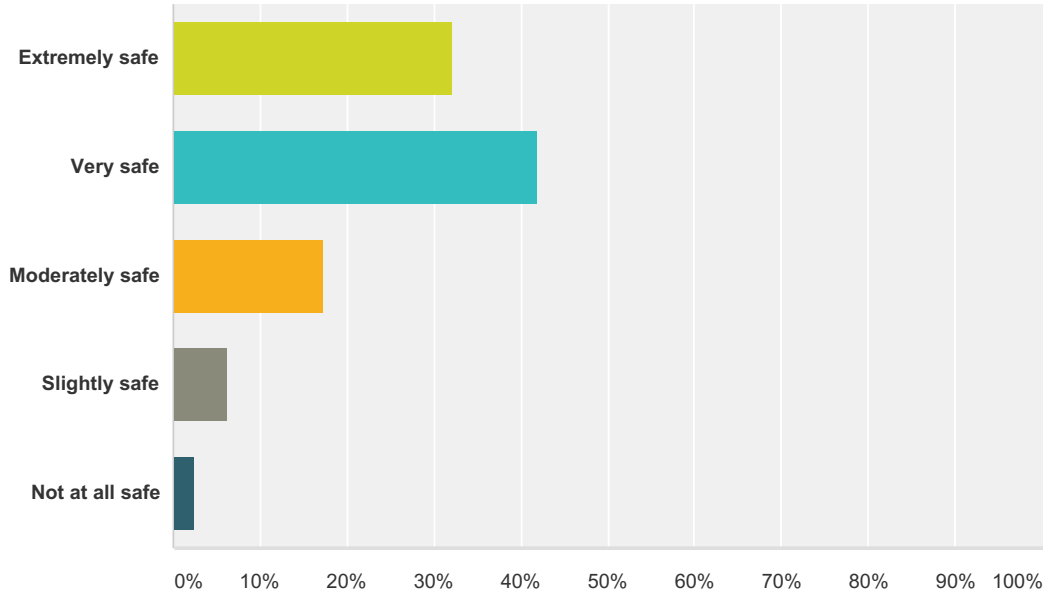

Answer Choices	Responses	
Extremely useful	30.49%	25
Very useful	32.93%	27
Moderately useful	19.51%	16
Slightly useful	4.88%	4
Not at all useful	12.20%	10
<b>Total</b>		<b>82</b>

Most students are satisfied with the information UEWM supplies them about safety and drugs and alcohol, but there are some students that feel we need to work harder. We need to disseminate more information perhaps in Chinese and Korean and take additional time in class and at the new student orientation time.

### Q3 How safe are the facilities at this school?

Answered: 81 Skipped: 1

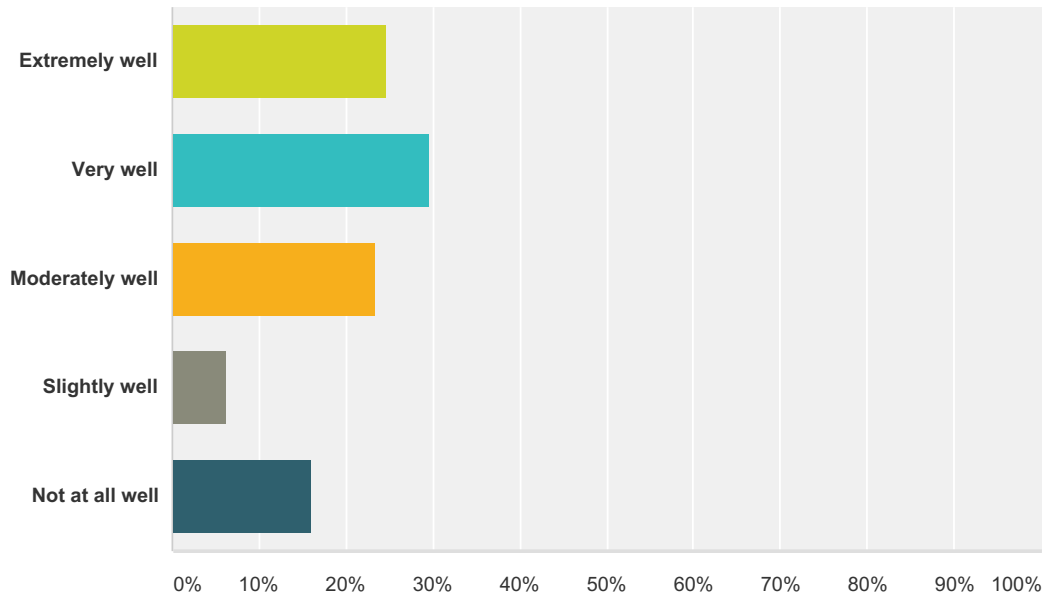

Answer Choices	Responses
Extremely safe	32.10% 26
Very safe	41.98% 34
Moderately safe	17.28% 14
Slightly safe	6.17% 5
Not at all safe	2.47% 2
<b>Total</b>	<b>81</b>

While the overall ratings are good there is more that can be done to improve the safety of the facilities and communicate the safety features of the facility.

### Q4 How well does this school communicate emergency information?

Answered: 81 Skipped: 1

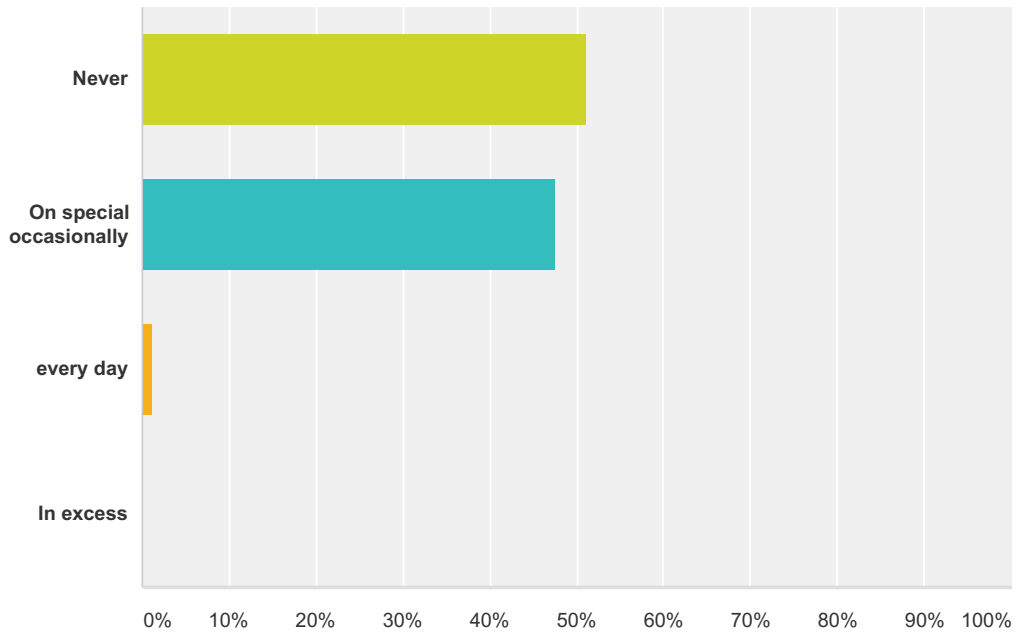

Answer Choices	Responses
Extremely well	24.69% 20
Very well	29.63% 24
Moderately well	23.46% 19
Slightly well	6.17% 5
Not at all well	16.05% 13
<b>Total</b>	<b>81</b>

The past two years we have done more to post emergency exits, post emergency exit signs with the routes to be taken and assembly areas. We have had our overhead sprinkler system checked and our fire extinguishers recharged. We have requested the State Fire Marshal to inspect the facilities each year. We need to broadcast this to the students so they know we are doing these things for their safety.

### Q5 How often do you consume alcoholic beverages?

Answered: 82 Skipped: 0

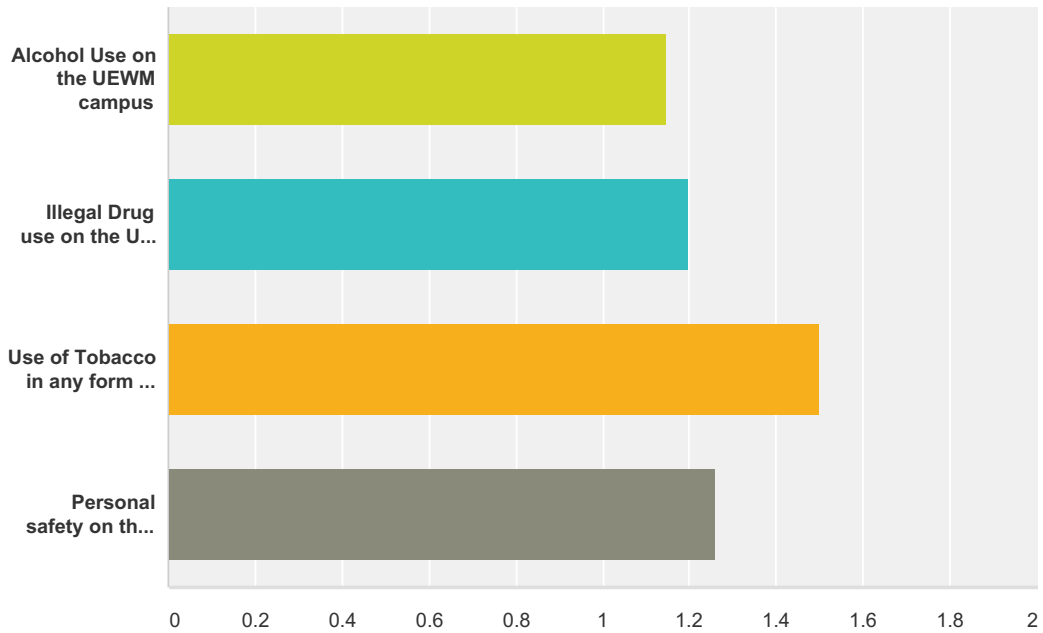

Answer Choices	Responses	Count
Never	51.22%	42
On special occasionally	47.56%	39
every day	1.22%	1
In excess	0.00%	0
<b>Total</b>		<b>82</b>

It does not appear as if there is a drinking problem at the school. The programs we offer are Medical programs Perhaps the students realize the distriictive results on one's liver by drinking alcohol.

# UEWM Program Review

## Q6 Think about illegal drugs and alcohol at UEWM.

Answered: 82 Skipped: 0

	Never a problem	Occasionally it is an issue	Major Problem	I'm afraid to come to school it's so bad!	Total	Weighted Average
Alcohol Use on the UEWM campus	91.36% 74	3.70% 3	3.70% 3	1.23% 1	81	1.15
Illegal Drug use on the UEWM campus	92.59% 75	0.00% 0	2.47% 2	4.94% 4	81	1.20
Use of Tobacco in any form on the UEWM campus	68.75% 55	16.25% 13	11.25% 9	3.75% 3	80	1.50
Personal safety on the UEWM campus	82.93% 68	10.98% 9	3.66% 3	2.44% 2	82	1.26

#	Other (please specify)	Date
1	College campus should be tobacco free zone. A lot of students, and even UEWM employees smoke near the entrance doors! That really bothers me and affects my health.	1/29/2015 11:18 AM
2	School clinic's ventilation system is not functional, very stuffy and uncomfortable, especially not allowing any door to open during burning mods treatment	1/29/2015 12:12 AM
3	hot water dispenser working not properly more than 2 weeks upstairs. need hot water please	1/28/2015 10:52 PM
4	If you open the door for others then there is a problem otherwise leaving the door open in back can also be an issue. There are NO Drug or alcohol issues that I have seen.	1/28/2015 10:46 PM
5	Walking to parking lot after night class is a major safety issue. School may consider hiring security guards between 9:15 p.m. and 10:15 p.m. to patrol the parking lot and escort students in needs.	1/28/2015 9:56 PM
6	This is why I enjoy this university - feel safe, friendly people, clean, and no danger when leaving after dark.	1/28/2015 7:29 PM
7	Staff smokes a lot	1/28/2015 4:23 PM

## UEWM Program Review

8	none	1/25/2015 8:34 PM
9	Cleanliness of the facility needs to improve...inadequate to promote confidence as a health facility: many flies present in classrooms; folding chairs are inadequate for sitting in lectures; bathroom is emptied out regularly but not cleaned...filthy floors. Poor lighting in the classrooms; classrooms need to be better maintained...many light bulbs are out; broken chairs, desks, props. Parking lot needs to be better lit at night...too many dark spots. Thank you for asking for my input. I hope you'll find it useful.	1/23/2015 10:05 PM
10	Students smoke in parking lot, please have more light at side door stair way	1/22/2015 8:37 AM
11	I EXPERIENCED A SITUATION WHERE AN INSTRUCTOR OPENDED THE DOOR AT 10:45 p.m. let someone in and that person started to argue with me. I am well trained however she had called her Husband on phone and asked him to come to UEWM and the instructor knew this was not a good idea and let her in anyway like an ambush which was not cool at all and it is termed Lying in wait since the instructor had planed this cause she kepted me in campus till the person got here from Morgan hill, I was not gonna say anything about this but Now that you asked I am gonna tell you that this event will be marded in my mind for sometime also far as I know I have never seen anyone on drugs or drinking on Campus although I did see a can of beer in the trash this was all I can say does not threaten me I am from North Philly. Ballet dancer and feel safe most of the time except for this pass years insident which was more painful since it was a betrayal by someone I thought was a trusted person and instructor.	1/21/2015 8:53 PM
12	The parking lot lighting is too dark at night.	1/21/2015 9:14 AM
13	People keep smoking around the clinic right outside and is really annoying to many who cannot stay outside	1/21/2015 8:10 AM

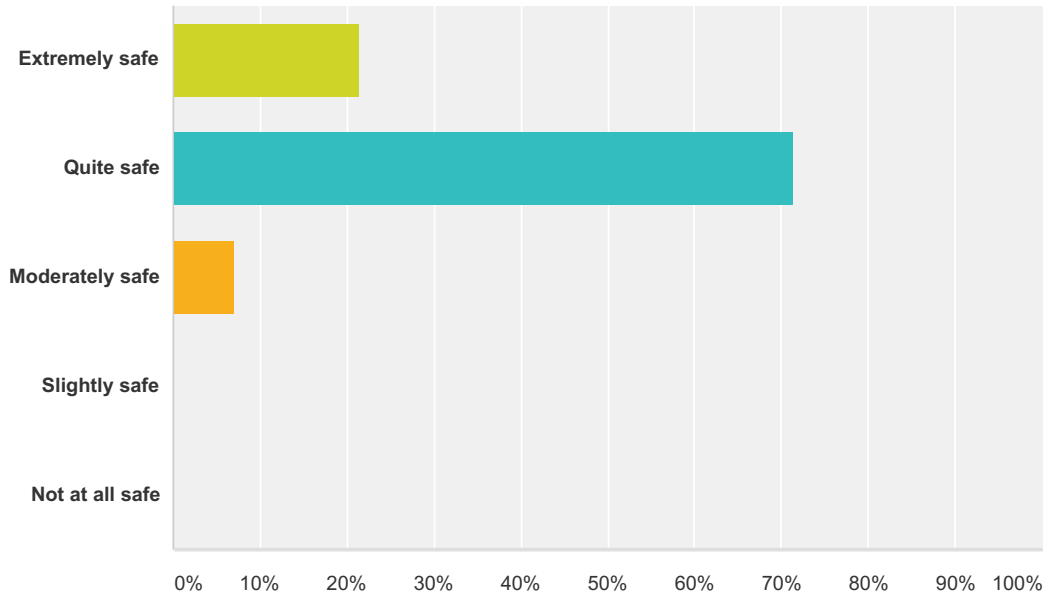

The last question on this survey asks about personal safety. Eighty -Three percent of the respondants replied that it was not a problem. On the other hand reading the comments, the lighting in the parking lot at night must be addressed and the smoking outside the building must stop.
